Gentlemen:

Although the specified USGS 7.5 minute series topographical map for the vicinity of this facility was ordered several months ago, we have been unable to obtain delivery as yet. Therefore, we are forwarding the remainder of Part A application without the map included.

As soon as the map is received we will forward it to you.

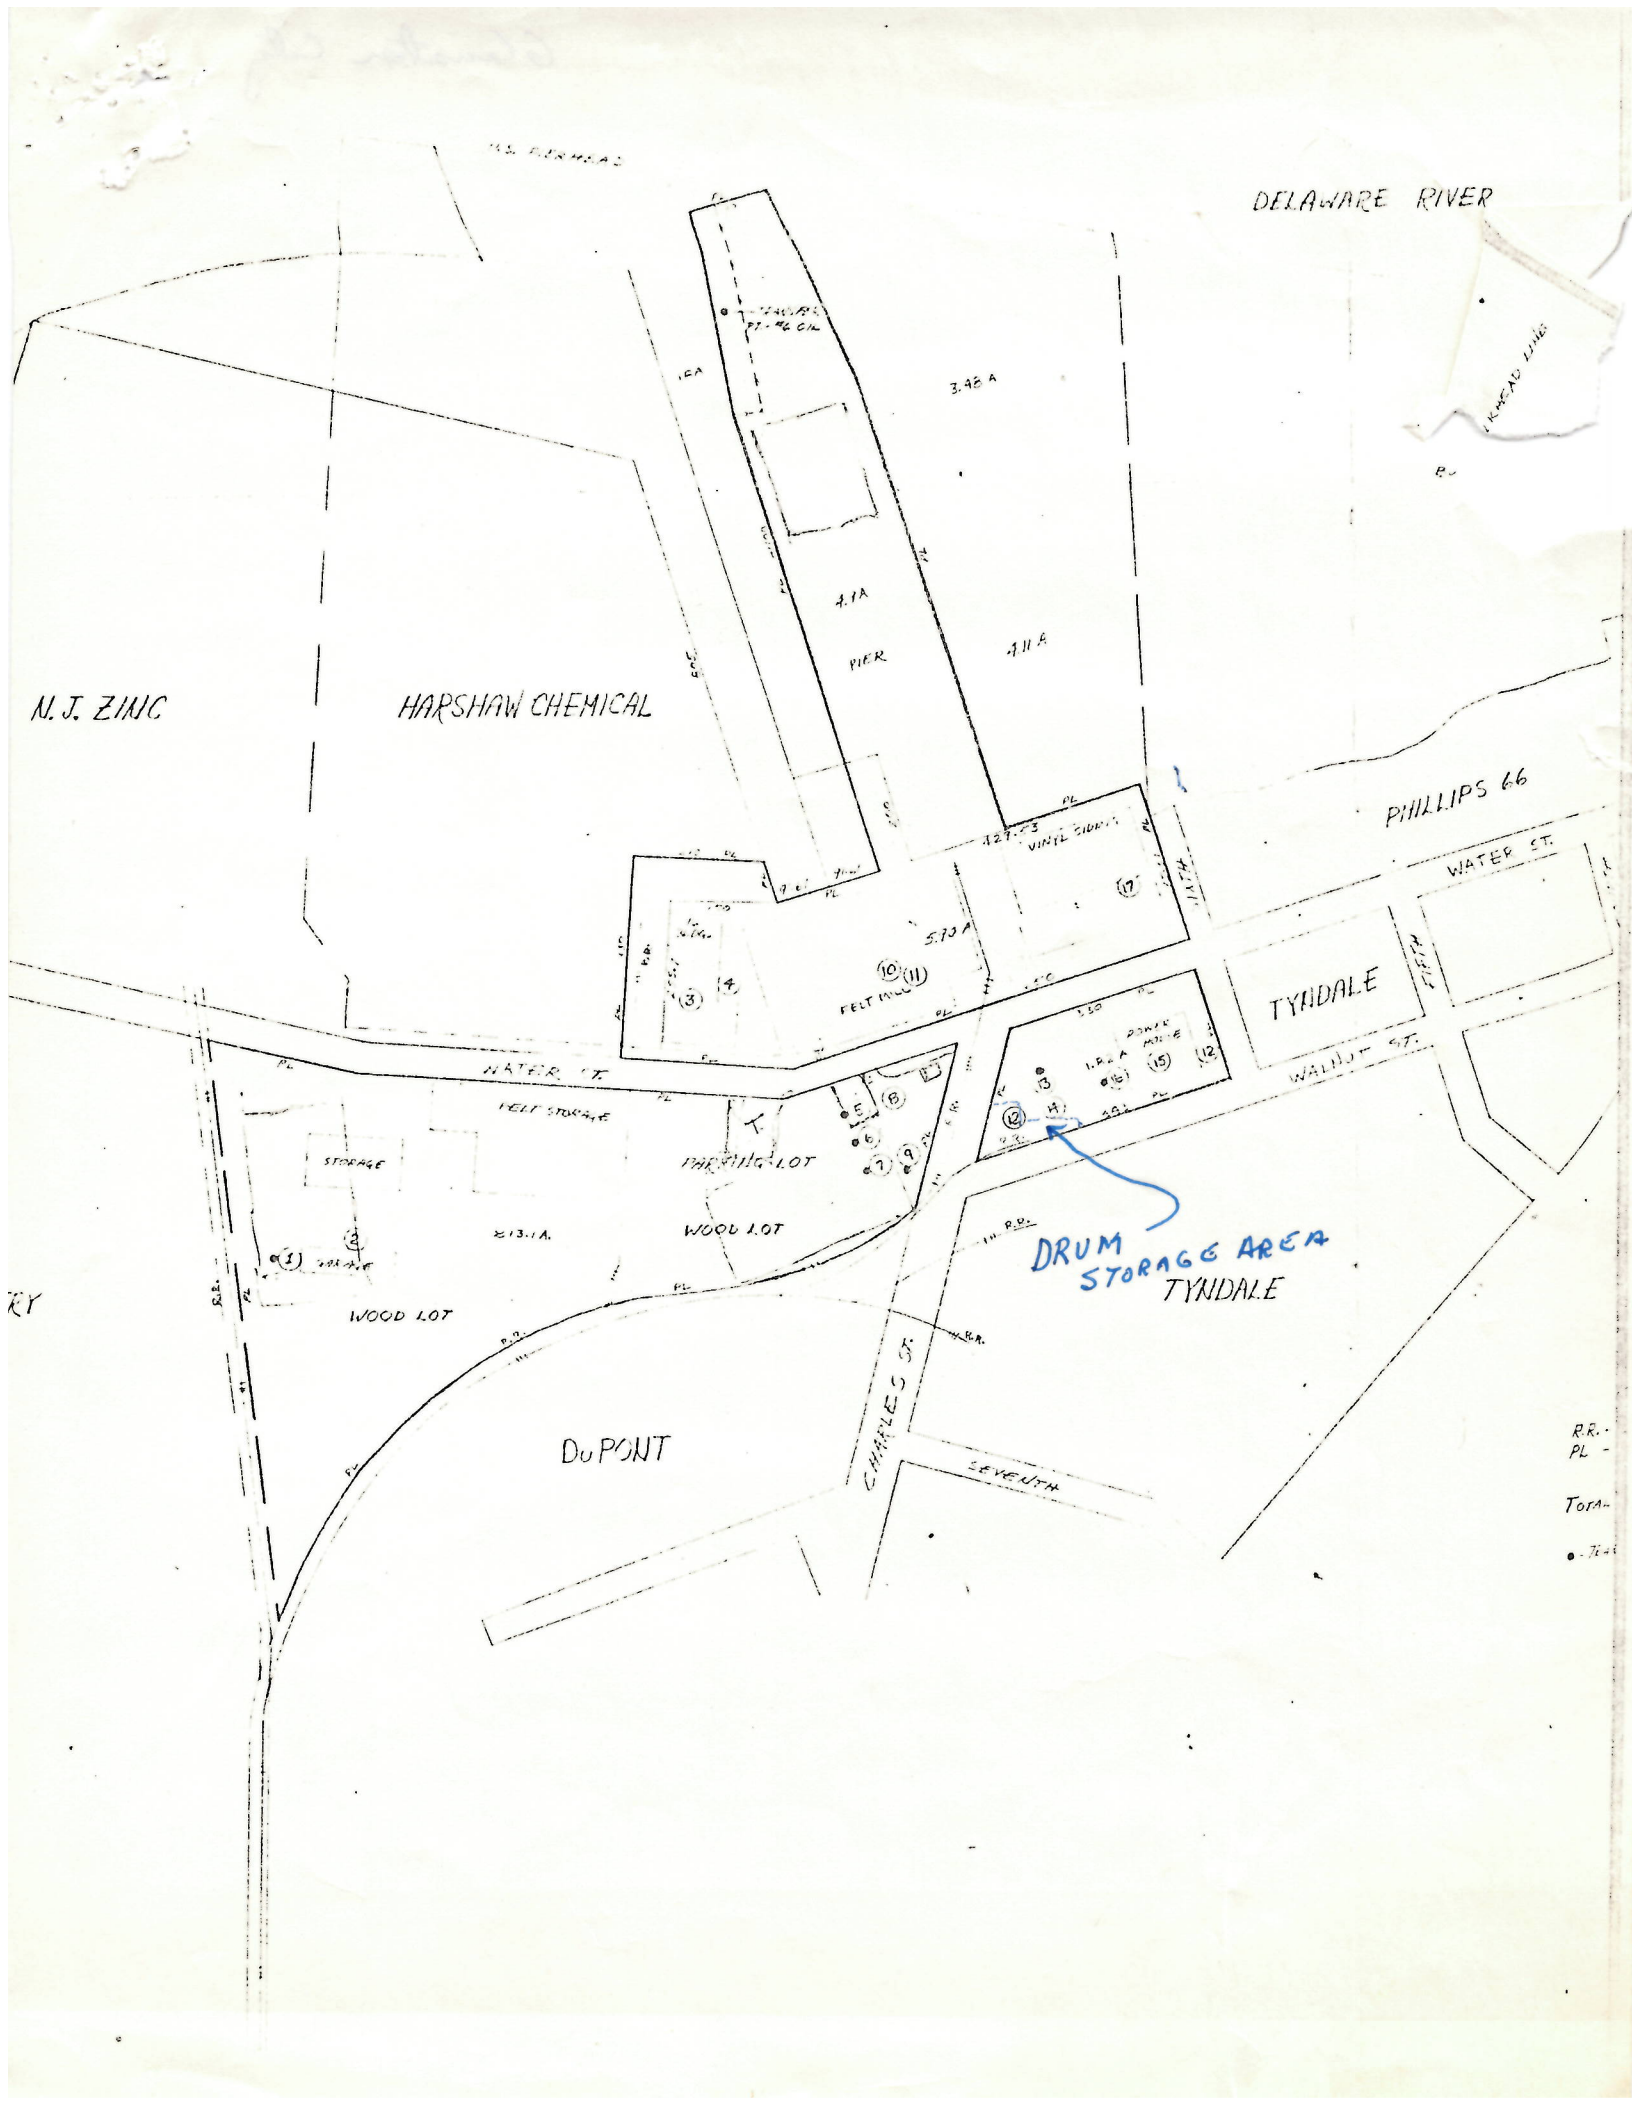

Very truly yours,

GAF CORPORATION

ACKNOWLEDGEMENT OF NOTIFICATION  
OF HAZARDOUS WASTE ACTIVITY  
(VERIFICATION)

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

RE: Delisting of GAF Building Materials Corporation, Gloucester City, New Jersey (EPA ID No. NJD 043 292 606 - New Jersey Facility No. 0414A2HA01), from Treatment, Storage and Disposal Status

Dear Mr. Bright:

The Bureau of Hazardous Waste Engineering (hereinafter "the Bureau") has conducted a review of its file on GAF Building Materials Corporation (hereinafter "GAF") and has concluded that the company does not operate a hazardous waste facility.

GAF submitted a Notification of Hazardous Waste Activity Form to the United States Environmental Protection Agency (USEPA) on August 12, 1980. This notification was for the treatment/storage/disposal of waste classified as hazardous. An incomplete Part A permit application was submitted to the USEPA on November 19, 1980. On July 10, 1981, GAF then requested that further processing of the Part A permit application be discontinued by the USEPA because GAF does not generate, treat, store or dispose of any waste classified as hazardous in excess of the small quantity generator exclusion limit.

An inspection of the site on January 9, 1990 by representatives of the Bureau and of the Department's Southern Bureau of Field Operations revealed that GAF only generates hazardous waste. The hazardous waste generated is spent solvents from degreasing parts and equipment in a shop area at GAF. Furthermore, GAF ceased its manufacturing operations (base felt) on December 31, 1983 and removed all hazardous waste from its clean out project in September of 1986.

Based upon the review by the Bureau, and the site inspection performed by representatives of the Department, the Bureau has determined that GAF does not treat, store, or dispose of hazardous waste. GAF which is identified by the USEPA identification number NJD 043 292 606 is no longer included in the Department's list of Treatment, Storage or Disposal facilities.

Mr. Fred Bright

Dear Ms. Tascarella:

In reference to our telephone conversation on November 9, 1982 we are requesting suspension of further processing of our Part A Hazardous Waste Application for the above referenced facility. The basis for this action is that, at present, this facility does not generate, treat, store, or dispose of any waste currently classified as hazardous. In the event a hazardous waste is generated it will be disposed of within ninety (90) days in accordance with the regulations.

If any questions should arise concerning this matter, please contact me at (201) 628-3170.

Very truly yours,

GAF CORPORATION

NEW YORK, N.Y. 10007

Gentlemen:

With regard to the referenced facilities we are requesting suspension of further processing of our Part "A" Application. The basis for this action on our part is that, at the present time, these facilities do not generate, treat, store, or dispose of any hazardous waste in excess of the small quantity exclusion (40 CFR Part 261.5). In the event a large quantity of a hazardous waste is generated above the 1,000 Kg. exclusion limit, it will be disposed of within ninety days in accordance with the regulations using our assigned EPA Identification Number. If greater quantities of hazardous waste are foreseen in the future that would qualify the facility as a generator, our application will be resubmitted.

Very truly yours,

GAF CORPORATION

CERTIFIED MAIL

EPA - REGION II  
INFORMATION SERVICE CENTER  
26 FEDERAL PLAZA  
NEW YORK, NY 10007

Reference: RCRA Notification for  
GAF GLoucester City Plant

Gentlemen:

Enclosed is the Form 8700-12 for the subject facility showing our notification as a generator and a facility that treats, stores and disposes. The specific waste information is not filled in since, at the present time, we do not have any wastes that appear in Paragraphs 261.31, 261.32, and 261.33 of the regulations. We wish, however, to obtain "interim status" in case a need should develop from our operations or the regulations are expanded to include waste that we might have.

Very truly yours,

GAF CORPORATION

0 2 MAR 1981

Subject: Hazardous Waste Permit Application-Incomplete Application  
EPA ID No: *U5D043292606*

The U.S. Environmental Protection Agency (EPA) has reviewed for completeness Part A of a permit application submitted pursuant to Section 3005 of the Resource Conservation and Recovery Act, 42 U.S.C §6925, for the facility referenced above. The Agency has determined that portions of the Part A permit application are incomplete. The items we found missing from the application are marked on the enclosed checklist. All missing items marked with an asterisk (\*) should be completed on the application form and the form returned to this office by *0 1 APR 1981*

All other missing items marked on the checklist should be completed and forwarded to this office under separate cover by *1 5 MAY 1981*

The above-referenced facility may continue to operate provided that deadlines stated herein are met, and also provided that the facility complies with all applicable provisions of 40 CFR Part 265. Should the Agency determine, upon examination of your completed application, that the facility does not qualify for interim status or a permit, you will be so notified.

Sincerely yours,

*Richard A. Baker*
